

Dear friends,

In the year when Kraljevo Theatre celebrates 60 years of its existence, apart from all, usual, problems with budgets and political misunderstandings, one more misfortune fell over the walls of this edifice and its people. The earthquake in Kraljevo in the night of 2nd November this year destroyed already fragile edifice of the city theatre. Ruined roof threatening to collapse on the scene and cracked walls any moment, fallen beam lights and piles of dust and ruins have set exceptional scenery where, unfortunately, the whole city now plays yet another horrible act of its drama. In its history, Kraljevo theatre has left deep artistic and educational trace among its fellow citizens. What distinguishes us is a constant battle with lack of funds and inability to renew the building that is now definitely ruined. Assistance of every kind is welcome. In this moment, there is a clear reconstruction project that would, in a short time, renew our home and finally make it suitable for playing our plays and gathering of audience.

In 60 years of existence of the city theatre, 250 plays have been done, which huge number of people has seen with joy. Every year, our plays represent the city in the best possible way. Being the biggest theatre in the region, featured by multiethnicity of its citizens and presence of all social categories, we've set a measure of things where we are a factor of togetherness of all those people of Kraljevo region. What is particularly distinguished is work on children plays, which apart from professional results bring joy to our youngest fellow citizens.

Now we need help to bring back life to the institution that cannot count on assistance from the City Administration that faces numerous problems. Therefore, herewith we address you for help and support, because this is a place where youth of Kraljevo gathers and educates, and where ideas of modern, tolerant and, above all, human values are represented and defended. The required funds are not negligible, but they are also not too big.

**We are calling all people of good will and all friends of culture to help us as much as they can on an account number 840 - 705668 - 52, purpose of payment: HELP FOR THEATRE RECOVERY.**
